

## Week 2

### “Sing to the Lord?”

## INTRODUCTION

Music is so amazing! It’s crazy how when you combine instruments and vocals, songs can cause us to feel certain ways, remember certain events in our life time, and even cause us to start moving our bodies without even thinking about it. I know a lot of you right now are thinking of songs where you have experienced these things, but have you ever wondered why music can do that to us?

The answer is GOD! He created music and our desire to worship. When music comes on it speaks to our souls and allows us to focus on Him and connect with Him. We have such an amazing Father that He would give us this gift of music. Praise Him!

## **ACTION STEP**

For your action step this week, make an intentional effort to think about worship and how we respond to the Lord with it. Music helps us focus on Him, connect with Him and others, and it's us responding to who He is. This week turn on some worship music and spend time sitting in God's presence and truly seeking Him and asking Him to reveal to you what worship truly is in your life.
